

Ring Presenter

World's first Ring Style Thumb Controller

Fascinating technology break through by Genius!! The world's first ring style touch cursor controller for business, travel, education and i-users ~ Ring Presenter, is a lightweight design and human oriented ring style air-presenter with mouse functions.

With the US Patent design (No 7298362 B2) touch control air-presenter technology, you receive full access to control power point slides, Play (F5)/Exit, Last/Next Page, Left button and Laser pointer anywhere in the room when doing a presentation. In addition, Ring Presenter also comes with the in-air mouse function so you can use actual mouse functions like cursor movement, left/middle/right buttons, dragging and 4-way scrolling. Ring Presenter is a great tool for browsing Internet pages and documents in locations such as a bus, plane, train or school lectures.

00 Ring Presenter is a cutting-edge technology innovation, powered by the slimmest Li-ion rechargeable battery design to protect the environment while you enjoy the fun you always wanted. Also the smart battery-low detector flashes in blue when it is time to recharge. The Ring Presenter worry-free 2.4GHz technology provides a reliable working performance and the laser pointer can work at a distance up to 10 meters.

Ring Presenter is available in five colors: Blue, Gold, Pink, Purple, or Green. It's a high value, human-oriented touch controller that is worth showing off, there is nothing better than Ring. So why wait? Contact your sales representative now for more information.
